DETAILED ACTION

1. This action is responsive to Applicant's Appeal Brief dated 12/27/2005, responding to the 4/18/2005 Office action provided in the rejection of claims 1-24.

Response to Arguments

2. Applicant's arguments, see pages 9-14, filed 12/27/2005, with respect to claims 1, 12, and 14 have been fully considered and are persuasive. The rejection of claims 1-4, 7, 12-17, and 20 as being unpatentable over the "Description of the Prior Art" section of the originally filed specification in view of U.S. Patent No. 6,681,321 to Dale et al. has been withdrawn.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in two separate telephone interviews with John R. Lastova, Reg. No. 33,149 on 3/14/2006 (regarding claim 14) and 3/16/2006 (regarding claim 13).

The application has been amended as follows:

IN THE CLAIMS:

Please amend claims 13 and 14 as follows:

Art Unit: 2192

Claim 13 (Currently Amended)

In the first line, after "computer program product", insert --encoded on a recording medium--.

Claim 14 (Currently Amended)

In the last clause, after the phrase "if said data miss had not occurred and", replace the word "the" with the word --then--.

--End Examiner's Amendment--

Allowable Subject Matter

4. Claims 1-24 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, a tracing circuit that is responsive to a data miss to generate a data place holder within a stream of trace data at a position where data identifying said data value would have been placed if said data miss had not occurred and then, when said access to said data value does occur, to insert at a later point in said stream of trace data a late data value identifying said data value, as pointed out on pages 9-14 of the brief filed 12/27/2005. These limitations are present in each of independent claims 1, 12, 13, and 14. The distinctions provided by the independent claims apply equally to all dependent claims. Thus all pending claims 1-24 are allowed.

Art Unit: 2192

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
